Alex Banat, EV Marketing Specialist, Electric Vehicles, Energy New England, 508-698-1229 // abanat@ene.org

Westfield Gas + Electric (WG+E) is committed to providing high quality, reliable and affordable electricity and other related services to its customers. Electric vehicles (EVs) are already offering both excellent efficiency and performance at increasingly affordable costs. **That's why WG+E is pleased to announce its new EV awareness & incentives program, *WG+EV*.**

“We’re seeing an increase of customers in Westfield who own or are considering electric vehicles,” Tony Contrino, WG+E General Manager commented, “As a local utility, we’re proud we can provide expert information and support for these customers. It’s an exciting time for EVs in Westfield.”

In addition to the launch of the new *WG+EV* website, customers will now have access to comprehensive EV resources and support via a toll-free support line (1.833.443.8363) and email ev@ene.org staffed by EV Specialists.

Whether new to EVs or already an existing EV driver, residents can learn more about the different types of available electric vehicles and charging, get connected with dealers, hear about upcoming local EV events, and connect with EV rebates and incentives for EV charging available only to WG+E customers.

Learn more about electric vehicles and their many benefits at <https://wged-ev.ene.org/> and sign up to receive the latest information about incentives and upcoming events.

About WG+EV: *WG+EV is an outreach program to inform the electric utility customer about the savings and benefits that come from choosing an electric car and charging it at home overnight.* <https://wged-ev.ene.org/>

About WG+E: *Westfield Gas + Electric has been serving customers since 1899. WG+E puts its connection to the people of Westfield into action. Promoting community projects and events with the organizations that matter to its community is something they do almost every day. Whether it is sponsorship, promotion, or providing the manpower and supplies to make things happen, WG+E believes in helping its neighbors and making Westfield a great place to live.* <https://www.wged.org/>

***About Energy New England (ENE):** ENE, an organization serving the needs of municipal utilities in the northeast, works with numerous businesses, residents and utilities to help promote the principles of conservation, efficiency, and environmental stewardship, and advances the many benefits available through integrated sustainability planning. ene.org*
