

Westfield Gas + Electric's electric vehicle charging incentives are offered to promote adoption of EVs and charging at off-peak times. Eligible chargers must be purchased within the last twelve (12) months.

EV Charging Equipment	Rebates
Level 2 "Smart" Wi-Fi Capable Charger	\$400
Level 2 Charger	\$200

"Dollar a Gallon" Off-Peak Charging Program	Bill Credit
Level 2 "Smart" WiFi Capable Charger	\$10/month
Level 2 Charger	\$10/month
Level 1 Charger	\$5/month

Eligibility for Charger Rebate:

- Rebate will be in the form of an on-bill credit starting November 1, 2022
- If your Level 2 charger is not "Smart, WiFi capable charger", you can still apply for and receive a \$200 rebate
- The rebate may be used to pay for a licensed electrician's services, electrical equipment, and/or the charging equipment
- Maximum 2 EV charger rebates per household

Eligibility for "Dollar a Gallon" Bill Credit:

- Own or lease a battery electric vehicle (BEV) or a plug-in hybrid (PHEV)
- Set vehicle to charge between 8 pm and 8 am on weekdays
- Have a WG+E residential electric account that you use to charge your EV
- Charge at Level 1 (120 volts) or Level 2 (240 volts)
- Maximum enrollment is limited to 2 EVs per household

How to Apply:

1. Purchase qualifying EV charger and save your itemized dated sales receipt.
2. Apply online at www.wgeld.org and upload required documentation.
OR complete the following rebate application and mail along with required documentation to:
WGE Efficiency Program, 320 Riverside Dr. 1-A, Florence, MA, 01062.

Customers who do not have online access can call **844-403-7960**.

Application must be received within twelve (12) months of the installation date.

3. Upload or return the completed application along with a copy of your itemized dated invoice or receipt.

**Residential Electric Vehicle
Rebate + Incentive Application**

Remember your submission must include:

- a. Copy of your most current electric bill.
- b. Proof of electric vehicle registered to a Westfield address (e.g., copy of vehicle registration).
- c. Copy of dated receipt, which must include EV charger brand, model #, purchase date, and cost.
- d. Copy of your electrician's invoice (required for Level 2 incentives only)

Residential Electric Vehicle Rebate + Incentive Application

Terms and Conditions

UNDER THIS CONTRACT, YOU AGREE

Maximum two (2) charger rebates and/or monthly bill credits per meter. Equipment purchases and installations made within a rolling twelve-month period i.e. April 1, 2021, to April 1, 2022 are eligible for Rebates. This twelve-month period continues with current month being the qualifying month. The rebate(s) may be used to pay for a licensed electrician's services, electrical equipment, and/or charging equipment. The rebate provided will be as stated above or the amount of documented, eligible charging system expenditures, whichever is less. Application for rebate must be completed within 60 days of installation.

Data Access: As part of this program, you consent to WG+E and/or WG+E's third-party vendor to have access and use of certain Customer data and information, including energy usage and consumption data, as well as personally identifiable information. By signing up to participate in the "Dollar a Gallon" EV Rewards Off-Peak Charging Program, you consent to this information being accessed and provided to or by WG+E and/or WG+E third party vendors. This information will be used to assist in reporting and monitoring the charging sessions. No identifiable Customer information will be used beyond monitoring compliance with the Program. Other de-identified session data may be used to help supply and system planning within the WG+E Energy Supply department.

Compliance: WG+E reserves the right to monitor compliance of vehicle charging times through Automated Meter Infrastructure (AMI) monitoring and/or the charging software. If a customer charges their EV three (3) or more times during the weekday on-peak period in a month cycle, the customer will not receive the monthly off-peak charging incentive on their next billing cycle. Incentive eligibility will resume for the following month.

Enrollment and Term: Program enrollment begins upon processing of the application and shall continue until the end of the calendar year (December 31). Annual renewal of application is required to continue receipt of monthly bill credits the following year. Please renew your application by December 1st to continue to receive monthly credits the following year. WG+E will send renewal applications to Program participants in October annually.

This program is available as funds last. WG+E reserves the right to change these parameters at any point. Please allow 8-10 weeks for processing and the start of the monthly bill credit.

* \$1 per gallon equivalent is based on an average EV efficiency and average miles driven per month combined with WG+E's low electric rate and a \$10 bill credit, as compared to an average compact/mid-size gasoline only vehicle. Actual cost per e-gallon equivalent will vary depending on vehicle efficiency and the number of miles driven per month.

IMPORTANT: Please note the amperage on the charger of choice before installation. If the charger is over 40 amps, contact the WG+E to perform a site inspection to ensure there is adequate infrastructure for the charger.
